BOOKS FOR CHILDREN

-A Guide for Parents

Looking at books is fun for children. It helps them:

- learn about the world around them
- learn to talk about what they have seen
- feel close to their parents.

A story written about a child helps him:

- learn who he is
- learn about other members of his family.

Make a Picture Book

Cut pictures out of magazines. You will need about four pictures for a book. You may use more. Choose pictures that are bright

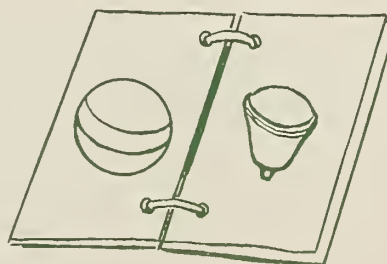

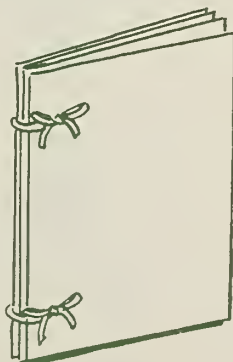

colored. You can make a book about babies, food, dogs, cars, farms, or any other subject.

You may make a book about big and little things or tall and short things.

Paste pictures on pieces of heavy paper or cardboard.

Punch two holes in the edge of each paper or cardboard.

Put the "pages" together with string or yarn.

If you can draw, you can draw your own pictures for a book.

Write a Story for a Child

Write a story for a child. It can be very simple: For example—

JOHNNY'S STORY

This is Johnny.

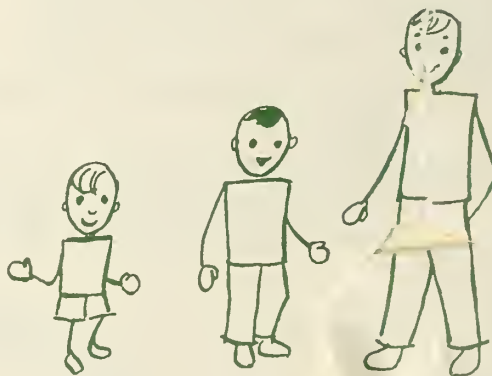

Johnny is a boy.

has brown eyes.

Johnny has brothers and sisters.

How many brothers?

How many sisters?
